

**Open-air cinema? Drive-in movie? Public screening?  
Mega advertising space? Outdoor presentations?**

The fast and professional solution for building large projection surfaces for short-term use is provided by our inflatable screens.

The EASY models are available from 5m to 10m (16.4ft to 32.8ft) screen width. EASY models are Ideal for small and medium number of viewers.

### Inflatable projection setup:

- high-frequency-welded frame structure with two eyelet rows (front side and back side)
- strong theatrical wrinkle-free front projection screen surface (Alfresco by Harkness™)
- black coated screen back side for higher contrast and no disturbing lights
- black screen ties
- anchoring belts with double locker and certificate
- blower for inflation and pressure measurement (automatic refilling)
- over pressure valve
- connecting hose
- English manual

### All models have in common:

- ✓ simple and fast construction
- ✓ stability during the event – even in the wind
- ✓ uncomplicated removal
- ✓ fast and economical transport
- ✓ sophisticated concept with rich accessories for (almost) any event.
- ✓ inflatable frame is made in Germany
- ✓ constructed with industry and product know-how since 1996
